Clear ESD Grid Print Vinyl Cart Covers

Grid Print ESD clear vinyl cart covers are flame retardant and can be used for static control, test and other production areas where storage or mobile carts are used. The grid print is conductive. The grid print pattern offers a unique look that can also be utilized in store or office areas.

Surface resistivity grid printed side $<10^7$ ohms.
Back side 10^{11} ohms.

Also available with zippers or Velcro®, pockets, imprinting, and reinforced corners.
